Create organization

6. Organization created successfully

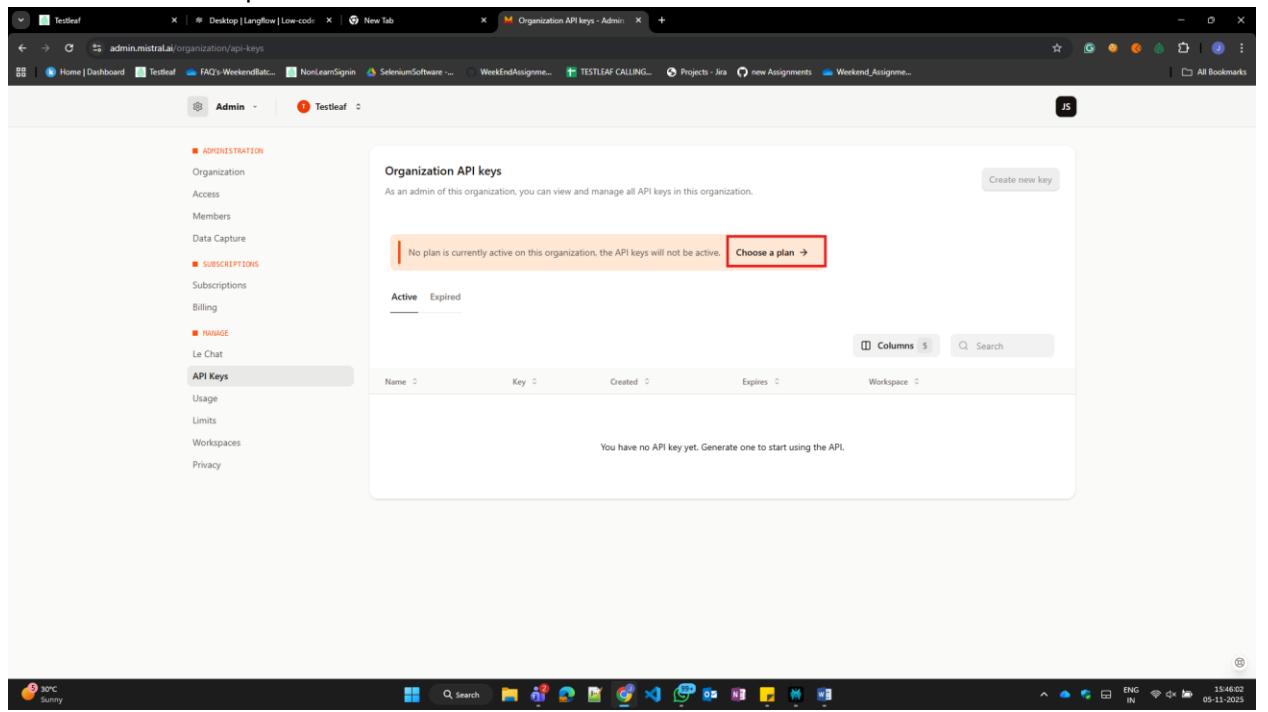

The screenshot shows the Testleaf Admin interface. On the left, a sidebar menu includes sections for Administration (Organization, Access, Members, Data Capture), Subscriptions (Subscriptions, Billing), and Manage (Le Chat, API Keys, Usage, Limits, Workspaces, Privacy). The main content area is titled "Your organization" and displays the organization name "Testleaf" and its ID "6956805...05c-e34189ef3e00". A "Save" button is visible. Below this is a "Danger zone" section with a "Delete organization" link and a note about permanently deleting the organization and its data.

7. Click on the API Keys menu to create API Key

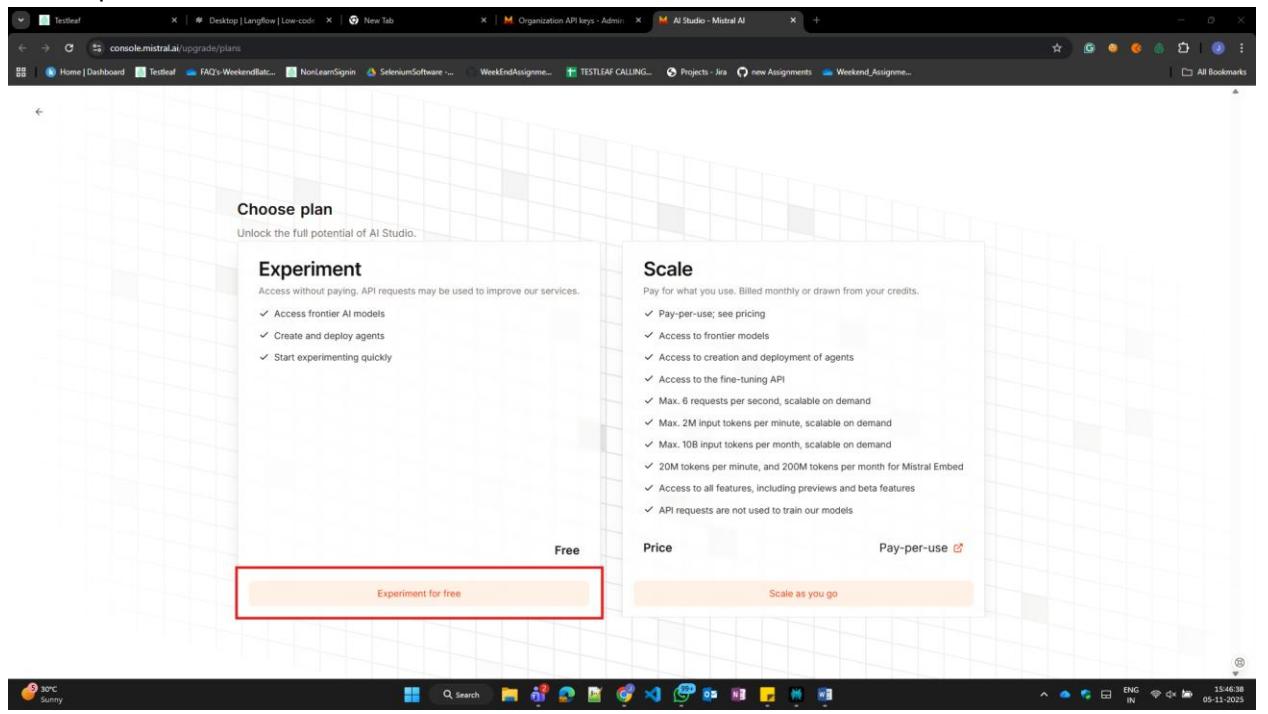

This screenshot is identical to the previous one, showing the Testleaf Admin interface. The difference is that the "API Keys" option in the Manage section of the sidebar has been highlighted with a red rectangle. The rest of the interface remains the same, showing the organization creation page.

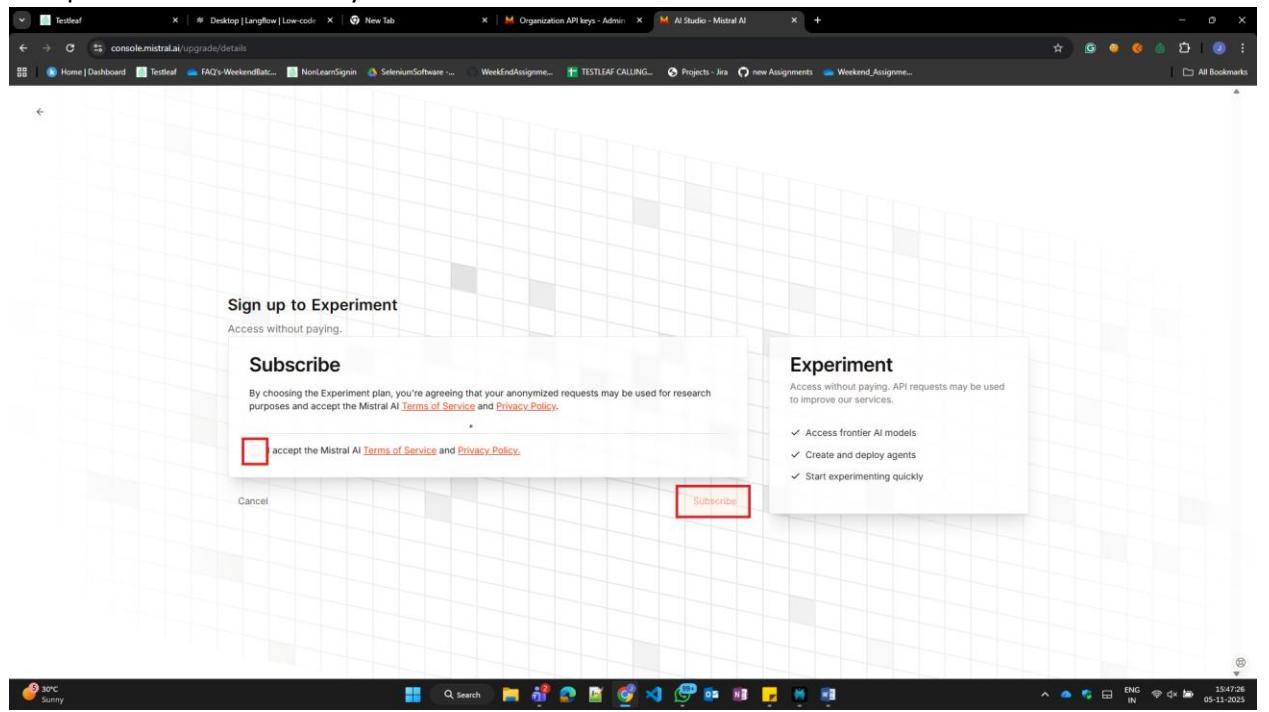

8. Click on the choose plan

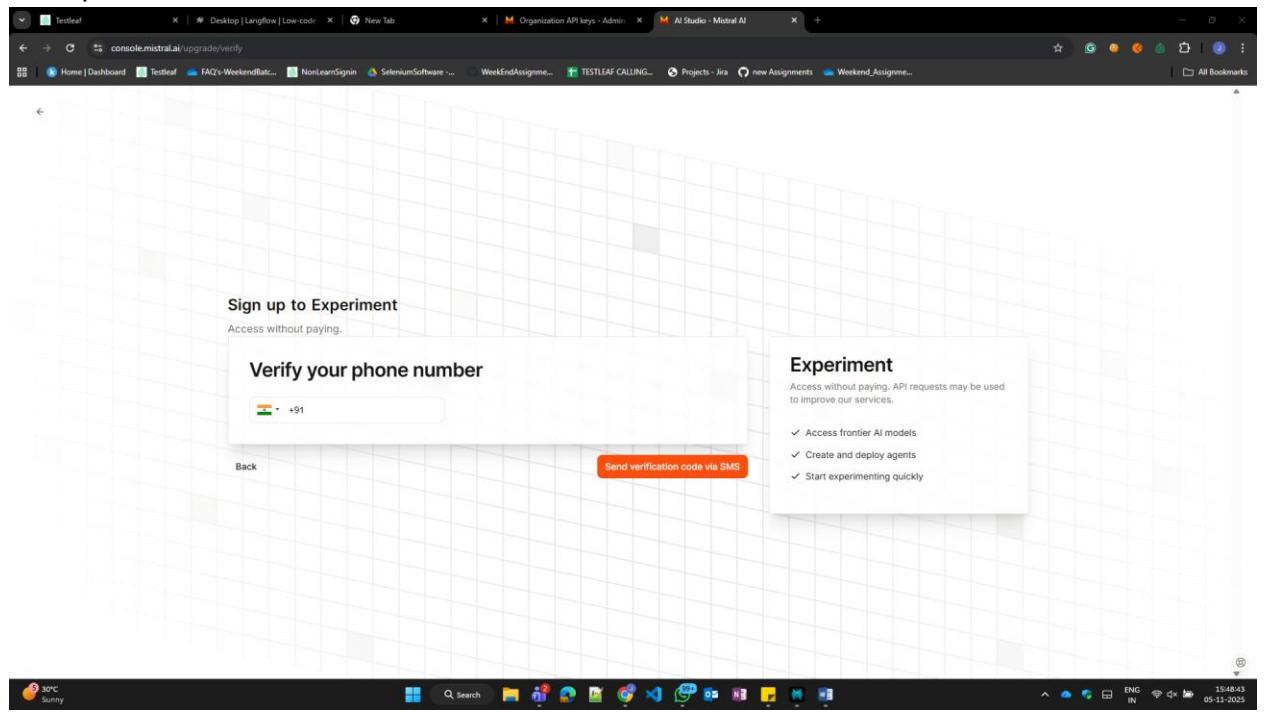

9. Click experiment for free button

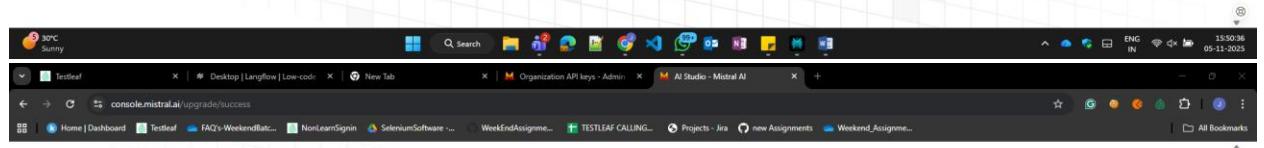

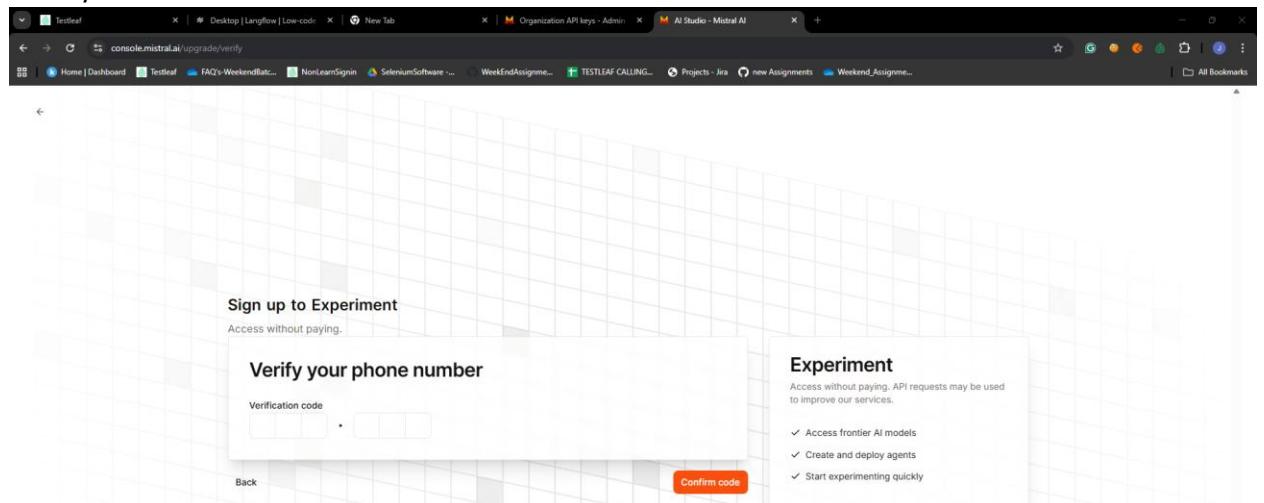

10. Accept the Terms and Privacy and click subscribe button

11. Enter your mobile number and click send verification via sms button

12. Enter your Mistral AI verification code and click confirm code button

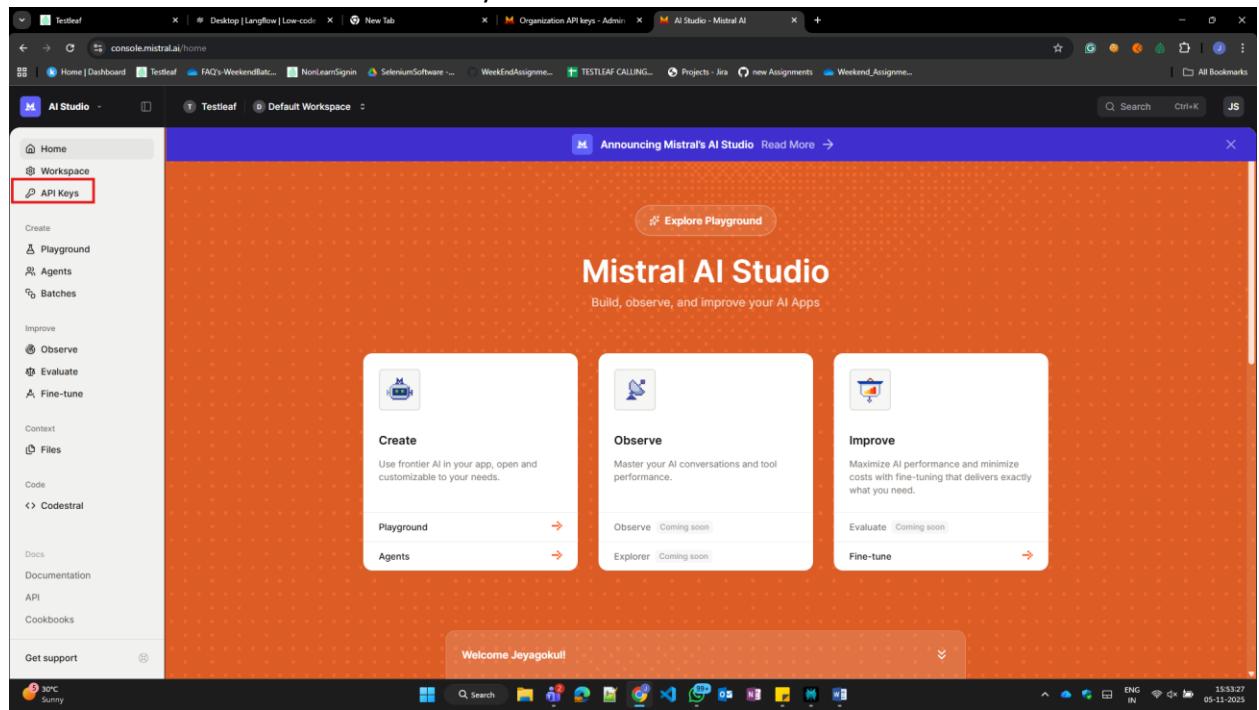

Subscription successful!

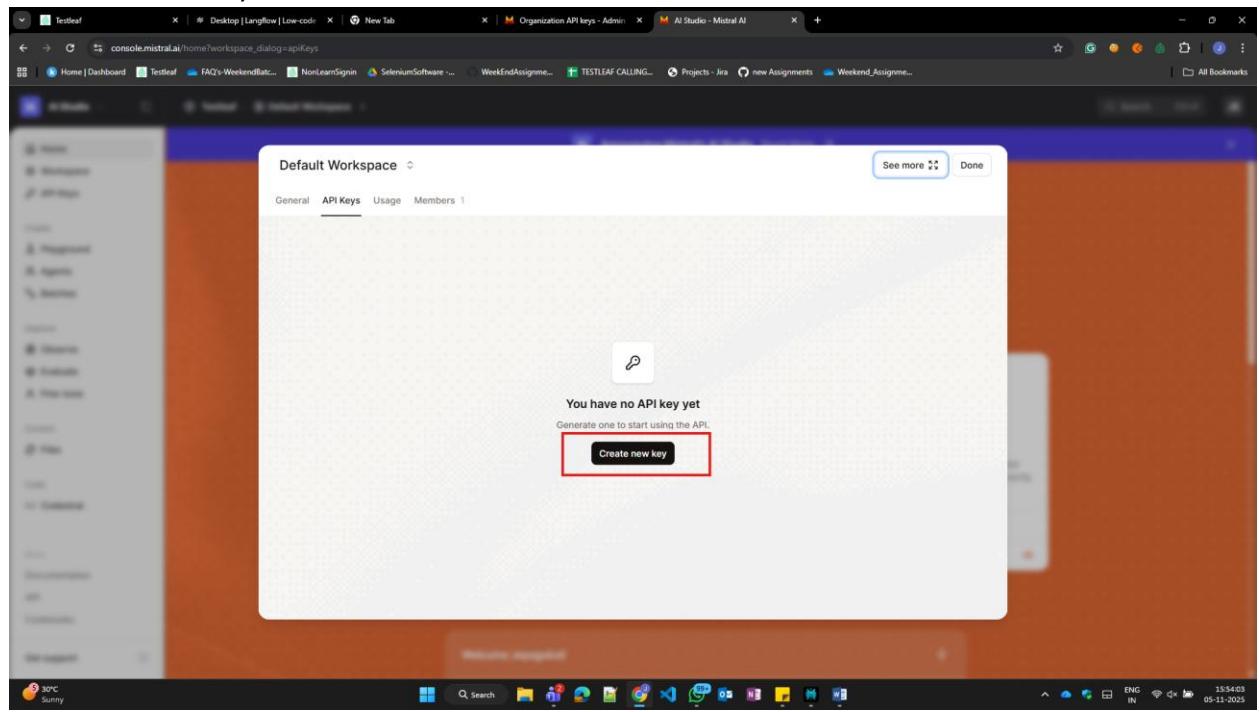

[Go to AI Studio](#)
